

## How Not To Do Things

Ever wondered how, despite your hardest efforts in the office, nothing ever seems to get done? The answer is right here in your hands. Your co-workers, managers, employees and even business partners may be better versed in the eleven principles contained in this book than you might imagine. Arm yourself, and know your enemy. With the subtitle: the Corporate Saboteurs Handbook, summing up its raison detre, this very clever, very funny and very sharp little book cuts brilliantly to the chase, attacking the very heart of business paralysis by analysis and the mind numbing techno-speak world of mission statements, team building and expensive consultants. Want to really understand how to get things done and achieve real results when everything around you seems to conspire against it? Read this little gem and try not to laugh out loud in the office - after all, you dont want them to know youre on to them. An invaluable tool for anyone with a sense of humour and a sharp mind who want to take on the corporate world and win. Delightfully retro and tongue in cheek, its the thinking persons answer to tHE SECRET.
