

In Defence of Virginia

This OCR reproduction, that has been carefully scanned for errors and usual characters, was a ground breaking book at its time. The author, who was also Stonewall Jackson's good friend and biographer, gives the Southern consensus on slavery, its practice and prohibition. He presents the evidence that Virginia was the first U.S. state to put limits on the number of slaves brought each year and ultimately the first to prohibit slavery. Written during the painful reconstruction of the South, the author eloquently presents his case, using the Bible as his guide and history as an example.
