

Growing Up Small

A survivor is a damaged soul seeking those things that are as important as the air we breathe - love, peace of heart, contentment and quietness of spirit. Growing Up Small speaks to the survivors of childhood sexual abuse. The diary memoirs of the author take the reader through over 50 years of confusion and chaos, lifelong destructive behaviors and countless fears and phobias. It is my sincere hope that somebody out there will read these pages and be able to say I understand now and they will be able to find the courage to overcome their own chaos and tragedies. It is also my hope that the partners who suffer along with their survivors may claim some understanding and relief of their own.
