

After The Rain

Many women today have experienced or are experiencing a difficult storm. We may be left uncovered as a woman. We may feel alone, as well as lonely. At first glance, we appear to have it all together, but on the inside our hearts may appear as a tumultuous glass menagerie of broken pieces. In this life, we often endure rain; trials & tribulations that may include abuse, broken relationships, financial difficulties, heartache and despair. After the Rain chronicles one woman's journey from her lowest points in life and on to complete victory!
