

Conditioned

Synopsis Society has changed faster in the past hundred years than in any other period of human history. This change has profound spiritual implications that most of us are completely unaware of. In a unique way, *Conditioned* exposes a conspiracy that starts from the beginning of time to the end of the world. It tells how Satan has slowly but surely groomed society to become what it is today, and how he has prepared it for the leadership of the Antichrist in the future. The speed at which human society has been changing in the last hundred years is not only the result of us being an intelligent dynamic species, but also the result of a complex machinery engineered to move society in a direction that benefits Satans agenda. *Conditioned* describes this machinery and exposes its: * roadmap * strategies * milestones *progression through time and space. For those believers who are having a hard time navigating an increasingly dark world, *Conditioned* equips you with spiritual high-tech night-vision goggles. It helps you understand a world with a growing antichurch, antiChristian, and antiIsrael spirit while demonstrating how believers still triumph in the end by the power of the Holy Spirit.
