

Perfect Solution: Global Economic Security (Amen Code) (Volume 1)

Perfect Solution outlines Plan 360, a new Global Social Economic System that aims to permanently end: poverty, human rights violations, and social and economic decay.

Plan 360 includes solutions for: 100 percent Global Employment. A Standardize Global Compensation System to ensure the payment of fair wages for all members of society, and to accurately determine the True Cost of Production for the stabilization of prices. A dual Monetary and Earned Equity economic system to ensure money has true value and to prevent financial collapse. Global Debt Settlement Plans to ensure the fair repayment of investments to all stakeholders and will prevent enslavement of future generations that would have been burdened with our debts. A plan to end dependency on corporations for the payment of wages and the provision of health and retirement benefits. Methods and tools to end political and social corruption and serve to build and preserve social alliances. Truly Free Fair and Open Markets The inclusion of Global and Local Labor Unions and Trade Guilds that protect the rights of the Labor Force without the worry of fair compensation arguments that hinder corporate and labor relations. A system that upholds the Rights of the Individual and sets those Rights as a Primary Focus to ensure equality for all people. The practical application of Religion, Policy, and Law should perfect the laws, processes, and systems we make use of, so the life of every man, woman, and child is enhanced.
