

## The Traveling Soul: A Road to Self Discovery

Hit # 1 on the Amazon Best Sellers List in both the USA and Brazil. Find out why! The Traveling Soul is a true story about a young persons spiritual journey around the United States. As you mentally travel through vast landscapes from California to New York and everywhere in between, you will also be going on an internal journey to discovering your own inner truth. This is a must-read for anybody who is at a crossroads in their lives and is struggling between following their mind and listening to their heart. The author went from being a homeless teenager to having a big record deal. He then lost it all in a series of unfortunate events. But in the middle of his breakdown, he had a breakthrough. He sold whatever he had left, moved into his van, and hit the road to discover what life was really about. This book unveils the secrets that he discovered on his epic voyage. I was desperately seeking answers and not sure where to find them. All I knew is that my heart was pulling me in this direction. And once you get that desire to explore and expand beyond your comfort zone, the hunger cannot be silenced until you do. I now share this story to inspire others to follow that intuition. It doesnt matter if it is traveling in the external world or traveling through your internal dynamic. It is all about knowing yourself, discovering yourself, creating yourself, and expanding yourself. As the grains of sand fall through the hourglass, the most important question is what did you do with your time? What made you feel alive? This story was a constant reminder that it truly never is about the destination. The journey is where we find ourselves. This moment is the only thing that is real. How will you choose to experience this life?
