

Back on Track

Psychologist John Cheetham has brought together leading life counselors to create a practical double-CD recording designed to help us all reduce life's stresses and strains. Decades in practice have given Cheetham and his team unique insights into how we cope with change, what triggers depression, how we can change ourselves, and how to avoid anxiety and stress in modern life. This friendly and jargon-free CD is for anyone looking to make changes to their life, however major or small, who needs inspiration, encouragement, and reassurance.
