This book is intended for anyone of any age. The use of analogies and descriptions are clearly written in manners that relate simple everyday concepts that anyone can understand. The evidence and examples provided link everyday experiences with science and spirituality in a way that provides indisputable proof for even the most skeptical person to open their eyes and wake up. Everything is clearly identified for anyone who is seeking more information or wants to do additional research, along with the bible verses that relate to concepts that will help anyone pierce through the mirage of lies we have accepted in our life.
