

## Black Witch

The name of my book is Black Witch It is a non-fiction book. The book is about the death of my daughter and the aftermath of that life changing event. It follows the path of a simple man as he grapples with his depression and his ideas of God. He battles his demons. He confronts the glue that holds life together. This process possesses him and gives him a passion to depart from conventional thinking. This unconventional thinking gives the reader a unique perspective.
