

Blue Star the Pleiadian - My Teachings through Transmissions

As most of the worlds peoples have finally begun to notice, time is moving at such an accelerated rate. Earth changes and political upheavals are ushering in a new era in human and planetary evolution. Blue Star the Pleiadian has not left any stone unturned during his long quest to bring truth to the masses. The saga of the Light and the dark, the good and the not-so-good and the still remaining Illuminati forces are written about by Blue Star in his own inimitable style. Although he has gone to great lengths over the years to clearly define what Light is and what dark is, many people still do not grasp this greater concept. If you each receive just one morsel of information in these volumes that will help you to better prepare yourselves for the here and now coming times, then you should be very proud of yourselves. Volume Three contains such diverse subject matter as, Of Lions and Lambs, Mankind in Pursuit of Universal Trivia, If you could Turn Back Time, Life as a Commercial, In Defense of the Realm, Marriage and Communicable Intent, Synchronicity - Is it real or Con-incident, Shadows and Sunshine, The Amassing of the Walk-in Forces, The Nature of Reality-Concepts of Energy, The Physical and Spiritual Concepts of Evolution, Group Karma, The Relativity of Past Lives, Karma and Completions, Mankinds Soul Evaluations between Lives, Perseverance in the Face of Difficulties, The Tail of a Century, The Bird Tribes return for the Time of the Sacred Hoop. This Universe, The Creator, the God of this Universe and the Creation process understands the challenges of living on the Earth Star planet. Each succeeding generation that evolves by living their life to the best of their ability and understanding that life itself has meaning, paves the way for a better tomorrow today. Journey well.
