

Some Fiscal Aspects of Public Education in American Cities (Classic Reprint)

Excerpt from Some Fiscal Aspects of Public Education in American Cities
Twofold Aspect of Present Educational Thought. - There are at the present time two well-defined tendencies in our public educational thought and activity, which may be designated as the scientific and the economic. At the outset, it may be well to anticipate the possible obscurity or confusion arising from the use of these terms, possessing, as they do, meanings of both variable content and application. The Scientific Aspect of Education. - The so-called scientific spirit is as old as modern science, and its invasion of the field of educational activity has been as extended and as rapid as those sciences, fundamental and cognate to education, have developed to act as guides and leaders for the advance. This scientific aspect, as it concerns organized public education, is best defined by the many and varied efforts of the day to evaluate the results of educational endeavor; to measure in terms of some standard unit the relation between effort and result; to give to education, in a degree at least, some of the exactitude and precision which have grown up within the physical, biological, and social sciences. It has, as it were, assumed three phases. On the one hand is the child; on the other, the teeming and multiplex super-organism of society; between, stands the school as an adapting institution. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of

imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
