

## Building Belief: Constructing Faith from the Ground Up

There are many apologetics resources available on bookstore shelves across the country, but none are quite like this one. Based on the Apologetics Pyramid method developed during Meisters work in the Defenders Ministry at Willow Creek Community Church, Building Belief begins not with assumptions of peoples biblical knowledge but with their experiences. Author Chad V. Meister developed his strategy to begin where most contemporary unbelievers find themselves-filled with uncertainty and doubt. From there he seeks to lead them objectively through levels of reasoning to the apex of the pyramid: the ultimate truth of God found in Christ. By meeting people where they are in life, Meister creates a resource that promotes greater understanding and spiritual development. Lay readers, spiritual seekers, and Christians who want to strengthen their own faith will appreciate this fresh take on a traditional apologetics approach.
