

Dating with a Purpose

Dating can be fun, but going on endless dates wasting your time and money isn't fun.... So one must have a goal...what's your pursuit? Is it marriage or just having fun? I am sure most of you want to get married, so if you have no intentions of marrying your date then don't waste his/her time, or yours. It's as simple as that. If you date with a purpose, you will date smarter. You have to set some standards for yourself and be able to quickly judge whether or not this person is worth your time and effort. Many aren't, you know that right? But when you do find someone who passes the test, the entire relationship becomes infinitely smoother and even if it doesn't work out, you won't regret it. Of course, you have to set realistic standards.
