

Will Eisners The Spirit: The New Adventures (Spirit Archives)

In 1997, almost six decades after the characters first appearance in 1940, legendary artist and writer Will Eisner gave permission for a new series of stories to be commissioned featuring his signature creation, resurrected detective Denny Colt, also known as the Spirit, written and drawn by the most famous names in the comics industry. The call went out, and the response was nothing short of remarkable, with contributions from such creators as Alan Moore and Dave Gibbons (in one of their rare collaborations since Watchmen), Neil Gaiman (The Sandman), Paul Chadwick (Concrete), Eddie Campbell (From Hell), amongst others. With characters featured in Frank Millers highly anticipated movie The Spirit, you will find in these pages new tales of Central Citys protector versus familiar villains such as the Octopus and Sand Saref; witness his undying love for Ellen Dolan, daughter of Commissioner Dolan, the only man to know his secret identity; and glimpse what might be the Spirits fate in an uncertain future.
