

# Beyond Giving Something Up: Lenten Activities for Children and Families

While Lent can be a beautiful time of reflection, repentance and renewal for adults, what can it mean to children? For most children it is simply a time of giving something up and it can be a dismal, drab time of the year for them. It does not have to be this way! In this book you will discover many activities to bring life into your family's Lenten season. Through the activities in this book, your children will be able to personalize the true meaning of Lent and will learn to anticipate Lent with devotion and joy. As a parent you will be able to share this wonderful time with your children and be able to guide them in the meaning of this holy season. You will also grow as a family by participating together in engaging and fun activities surrounding prayer, fasting, and serving others. The traditions that you create with your children will last a lifetime, and the lessons that they incorporate into their life will help them develop into holy adults. Included in this updated version are kid-friendly recipes for Lent and a resource section for activities and recipes. Scroll up and click Buy to start your Lenten journey with your family!
