

## Dream of the Great Ship - Interpretations of Saint John Boscos Dream of the Two Columns

In 1862 Saint John Bosco warned about persecutions that are in store for the Church. This had been revealed to him in a dream, which he told to four hundred boys. In the dream there was a great ship steered by the pope heading for pillars of the Eucharist and Mary amid storms and hostile enemy ships. John told of these ships ramming the great ship of the Church and of a pope who falls during the battle. The dream caused no end of wonderment for the boys and for generations of Catholics. Now for the first time, the meaning of these images is uncovered as author Tim Bartel details the historical events that are unfolding in our lifetime. This incredible book includes a translation of the dream never before published! Here are just some of the perplexing images from the dream that you will find explained in this book:- The exploding book weapons- The escort ships- The meeting of captains- The raging storms- The pope who falls twice- The coinciding death and election of popes- The healing wind- The two pillars- The calm waters. You will also learn how the general public knew details of the Third Secret of Fatima during all the years it was safeguarded by popes. Whether you are familiar with John Boscos dream of the two columns or you are discovering it for the first time this book will engage you as you encounter the fantastic world of a modern clairvoyant saint and uncover what his dream means to us today. St. Don Boscos dream has meaning on more than one level. The basic message is that we should anchor our selves to the Eucharist and Mary for safe harbor. The dream also warns us to stay away from destructive literature and media that promote a culture of death. Although its a simple message, the dream describes that staying on course in our Christian pilgrimage requires all our strength. On a deeper level these things can mean much more. Having the Eucharist as

a goal of the pilgrimage can mean that this is a journey to proper Liturgy. The exploding books may represent concepts, ideologies, philosophies and principles that came out of writings of the 1800's and 1900's. The enemy forces can be political and military powers from Marxist, Fascist, or Communistic countries. The struggle to maintain course can mean the personal strain of Popes to keep the Church on course after Vatican II. Beyond that, the dream has a prophetic dimension. Many people can instantly recognize John Paul II as the Pope who falls in the dream and many can see the meeting of captains as the Vatican Councils. The storms are recognizable as various wars but is there any evidence to support these intuitions? Who is the Pope who moors the Church to the Eucharist and Mary and what does the placid water at the end mean? You will find clear and substantiated answers to these questions and many others along with greater details on all these levels of interpretation in this fascinating book Dream of the Great Ship!
