

Enoch and the Book of Coincidences V: Much Darkness Approaches

In what is undoubtedly the most personal chronicle since the original Enoch and the Book of Coincidences, this fifth book in the Enoch saga finds author Howard Michael Riell confronting major life changes - getting married, embracing Orthodox Judaism, leaving New York City and his friends and family, preparing for parenthood, and taking the first tentative steps to bring his amazing story to the world - even as the inconceivable revelatory experiences that changed his life continue to mount. Though he senses something momentous lies ahead, Riell can hardly be prepared for what comes next. Instead of glory and fame, what fate has in store will bring the stark realization that, as he is soon warned, .much darkness approaches.
