Special Summer Sale Find Your Essentials and Live Your Dream Life You are busy and your schedule is crazy and seriously hectic. You dont have time for yourself or time for much else. I understand because I was just like that, overwhelmed and overextended. I was working 80 hours a week between a job that paid the bills and work that I hoped would pay the bills one day. I was trying to squeeze in time for family and friends and a spouse. I had pretty much given up on time to run, do yoga, read a book, or spend time relaxing. I relied on junk food and sugar to fuel the insane schedule that was day to day life. I had gained weight and I ached everywhere. My patience was thin and I snapped at anyone and everyone easily. I was not happy but on the outside, I looked like I had it all. Inside, I was falling apart and I no longer liked who I had become. In this book, I will share some insight, suggestions and advice so that you can make some positive changes in your life. Its time to focus on the essentials and reduce your stress.
