

A Christian View of Space-Time

Confirms by Biblical Scripture, plain answers to the following questions concerning an Old Earth verses a Young Earth premise: Were the six days of creation as depicted in the Bible, a literal period of time of six 24-hour days? Answer: Yes! Do the six days of creation portray a period of time of billions of years? Answer: Yes! Was the Earth created at the same time when God created Adam? Answer: Yes! Did God create Adam, some 5,000 or 6,000 years ago? Answer: Yes! Does the Bible mention the dinosaurs? Answer: Yes! Did God, as some propose, create the Earth in its infancy to have an aged appearance, replete with the dried remains of billions of dinosaur bones that had never lived, therein bringing about a deception in an attempt to make the earth appear to have ancient age? Answer: No! If the earth is billions of years old, is evolution a fact of history? Answer: No! How can the answers to the above questions, which appear to contradict themselves, all be true at the same time? The Holy Bible is the only religious book in the world that challenges the reader to reason with its Author. Come now, and let us reason together, saith the LORD Isa 1:18 (KJV)
