

Financial Systems at the Crossroads:Lessons for China

Financial Systems at the Crossroads: Lessons for China is written by leading financial experts to study the causes of financial disasters internationally. The research team is drawn from the global research networks of three leading universities: the Antai College of Economics and Management at Shanghai Jiao Tong University, the School of Economics at Fudan University, and the Earth Institute at Columbia University. This review volume identifies the regulatory framework to guide the emergence of efficient financial institutions that are prudent; and to specify the required institutional mechanisms to prevent and resolve systemic collapse. It examines the specific circumstances of China to come up with a comprehensive agenda to reform Chinas financial sector. It provides in-depth analysis of Chinas financial industry to show its future evolution and offers lessons for developing a financial system that is efficient, innovative and resilient.
