

For the Souls of Black Folks: Reimagining Black Preaching for Twenty-First-Century Liberation

For the Souls of Black Folks examines the impact of black religious culture in shaping the ethical values and sociopolitical condition of U.S. blacks. The book reviews the nexus of theological traditions and historical factors that have formed black churches as environments where preachers serve as the moral compass for black churchgoers. For the Souls of Black Folks builds upon the work of sociologist W. E. B. Du Bois, who highlighted the presence of a double consciousness in the collective psyche of blacks stemming from racial oppression. The book explores the ways in which that double consciousness, often reflected in black preaching, socializes black Christians to subjugate their own moral authority to that of black preachers. The central argument is that this socialization to submit to preachers greatly underserves black churchgoers in developing and exercising their own power and authority as social agents, and thus significantly impedes the full sociopolitical liberation of all blacks. The book offers important new preaching strategies that more effectively facilitate the empowerment of blacks as critical agents of social transformation and healing in the twenty-first century. This book asks questions about how black preachers utilize their power that few religion scholars or churchgoers have dared to ask. It contributes a uniquely and insistently anti-racist approach to clergy ethics, especially the coercive pulpit practices of some preachers. Jackson requires her readers to think deeply and practically about a healthier new way forward. Traci C. West, author of *Disruptive Christian Ethics: When Racism and Womens Lives Matter* Rev.
