

Get a Life: A Survivors Guide to Finding the Balance and Getting the Bounce

GET A LIFE! Get Real! Never, never give up! Live generously! Know when to cross a bridge, when to burn it, or when to build a new one! But, get over it! GET A LIFE is the book for you. It can be your own personal survivors guide of how to deal with real life the ups, the downs, the sideways, because in life that is what we all go through, each and every one of us, no matter the age or the circumstances. Where could you find a book like this...that is so beautifully written in the lost art of calligraphy? The quotes in this book are ones when read can be an insightful Aha moment for the reader because the words are drawn from 1,000 years of love and pain and grief and joy. It also will make the reader take a reality check to slow down life in order to fully reflect how powerful the written word can express our deepest emotions. You know what else makes this book so unique? The reader can write their silliest, funniest, saddest, brightest or darkest moments or thoughts in a book that they can keep as their own survivor s guide in their own walk through life. Or guess what? They can give it to a partner, a daughter, a mother, a son or a friend who can then create a different and personal guide of their own. So, we have the words of wisdom, the healing quotes, the words of laughter, the words of grief and self-worth. How else could the reader experience another level of connection to GET A LIFE? ...The art, the beautiful art The abstract and mosaic art engages the reader at a very personal level to enjoy visually with the eye and connect emotionally with the heart. The mosaic of a shattered heart, or a new version of how to go down the yellow brick road, the purple shards of grief, and the bridge of how to get over it that s what we re talkin about. This book speaks to us all every age, every race, every gender will find value in the timelessness of the words in our book, GET A LIFE. From the Life Quality Test

page to the Taking a Risk page, our book is full of pages to stimulate or motivate a reader to play it forward in life. In other words, GET A LIFE is truly an uncommon, one of a kind book, a Survivor s guide to finding the balance and getting the bounce!
