

From Bitchy To Bitchin Book II: 13 More Ways To Find Your Happy Place (Volume 2)

Is life as a busy Mom leaving you frazzled?

Feeling overwhelmed with life, wishing your inner child could come out and play?

Is your life filled with more Bitchy days than happy days? What if you knew that you could choose happiness? And what if the steps to choosing happiness could be fun, easy and simple to incorporate into your day? This short, catchy little book is filled with Happiness Hacks that are perfect for those who are short on time but ready to take action and recreate their lives.

In the From Bitchy to Bitchin Series, the author takes you on a journey of self-discovery, providing tools and tips that will work seamlessly into your lifestyle, no matter how busy you are. From Bitchy to Bitchin 13 More Ways To Find Your Happy Place brings you fun ways to get your mind back into the Happiness Habit.

The first chapter in this book is Affirmations Creating Magic in Your Life.

And you are creating magic! Daily affirmations, positive mini bytes, paired with positive emotion, are scientifically shown to create new neural pathways in your brain. You are actually retraining your brain to think more positively and, in turn, you take control. You are no longer the passenger in the garbage truck of life. You're the boss! Another fun chapter, which can challenge some who may have lost touch with their inner child, is The Delicious World Of Childrens Books.

Childrens books are some of my very favorite books. You really dont have to have a child to read them and your age doesnt matter; not one little bit. Its too easy to become jaded about our world and our lives. Children believe anything is possible. And I think they are right. They still believe in wonder and magic but they also are determined, strong, creative, caring, forgiving and are less afraid than we grownups, with our common sense, to make mistakes. These books are written in a way that empowers you, gives you

choices and frees you to decide how to use it. You can read it from cover to cover, using each idea in order. You can open it to a different chapter each day or each week and just work on that principal.

This is playtime. Everything in here is fun.

So take your time and play with each chapter. Take a week or a month and read a childrens book every day. What did you learn from reading those books? How will it change the way you show up in your world? Write down 2 or 3 affirmations and have fun recreating your life and retraining your brain. Being scared and negative is easy but not a hell of a lot of fun. You are the one in control now! Take your brain on a ride to the wild side. Enjoy the journey. Love yourself first. And be happy now.
