

First Job - A Personal Career Guide for Graduates

Any college graduate entering the workforce knows that it is a whole new environment to navigate, but is often not adequately prepared for the challenges and subtleties that lie ahead. Using twenty-seven years of practical experience in the business environment, Joyce Jarek explores the common mistakes made in communication, teamwork, and professional decorum on the job, providing guidance for turning mistakes into success. With this book, Jarek provides tips and tools for the entry level worker to manage workforce rules, manage coworker relationships, and achieve personal and professional goals. First Job is a book for any business owner or human resources department looking to empower new hires through effective training, and for any entry level worker looking to create a viable career and move up the corporate ladder.
