

The Healing Reawakening: Reclaiming Our Lost Inheritance

For the first three hundred years of Christian history, healing prayer was fundamental in the life of the church. It even proved the main method of converting the unbelievers of the day. Then began the long slide of healing prayer into near insignificance. Ironically, Christians themselves, by reserving healing prayer for the most holy, were the ones who almost killed this mission so central to the gospel itself. The mystery of how this happened is described by Francis MacNutt in this fascinating history, which includes his own personal journey. MacNutt sees this loss as tragic and shows how necessary it is for us to rediscover healing prayer and once more embrace it, according to Christ's original mandate with amazing results! Christian leaders and anyone involved in the healing ministry must read this book.
