

How to Generate \$2000 per Month Passive Income from Niche Websites

Your average working person can come up with two different ways of earning money: They receive a promotion or they work more hours but have you tried a different method passive income? Getting promoted or working additional hours can limit on how much you could possibly earn. But when you develop multiple avenues of passive income, you can essentially make as much as you want! Look at it this way, a business consultant may charge about \$200 per hour (probably more than what you earn as an employee), but is this their limit! If they walked into a different place and decided to start charging \$1,000 per hour, they most likely will be redirected to the exit door. Every job pays what its worth and since a day has only 24 hours, there is also a limit on how much earning can be made a year. If you do however develop some form of income that doesnt require you to be present, you could repeatedly generate more money without reaching any glass income ceiling!
