

## Natural Science and Religion: Two Lectures Delivered to the Theological School of Yale College (Classic Reprint)

Excerpt from Natural Science and Religion: Two Lectures Delivered to the Theological School of Yale College I am invited to address you upon the relations of science to religion, - in reference, as I suppose, to those claims of natural science which have been thought to be antagonistic to supernatural religion, and to those assumptions connected with the Christian faith which scientific men in our day are disposed to question or to reject. While listening weekly - I hope with edification to - the sermons which it is my privilege and duty to hear, it has now and then occurred to me that it might be well if an occasional discourse could be addressed from the pews to the pulpit. But, until your invitation reached me, I had no idea that I should ever be called upon to put this passing thought into practice.
