

Victim or Victorious

Becca Levie shares a brief account of her life which includes heart surgery at the age of two, abuse, being kidnapped and abandoned by her own mother, and many other challenges. She describes how these experiences left her feeling victimized, damaged, and without hope of a future. *Victim or Victorious!* offers the life-giving truths and tools that gave her not only the way to live, but also a life of victory, triumph, and joy. Today thousands share the same pain and feelings of victimization that she once accepted. This book is written to reach the hearts of those who have lost hope or have settled for anything less than being victorious.
