

Incident at Fort Benning

In September 1977, during the Joint Attack Weapons Systems Test (JAWS) at Fort Benning Georgia, the entire base witnessed a UFO invasion. As many as 1300 troops were involved in the event. Most were left with severe psychological trauma and missing time gaps. John Vasquez was courageous enough to undergo counseling, regression therapy, and hypnosis. After 15 years of personal research, John and co-author, Bruce Stephen Holms present the story along with plenty of government documentation. Readers are asked to enter this experience with an open mind. After reviewing the official documents and scrutinizing the appendix make up your own mind regarding the Incident At Fort Benning.
