

Inside the Mind of A Woman and The Soul of A Man

This book deals with relationships; a guide for men to gain a better understanding of how a woman's perspective of a relationship differs from theirs. It will also give men more insight into the mind of women and what makes them react to a situation or circumstance that most men feel is tribal. It will also help women in understanding their man better and how he comes from his soul when reacting to relationships and the different dynamics of a relationship. This book is a good tool to use in building a healthy relationship for all parties.
