

## Intuition @ Work

Intuition is an everyday way for everyone to connect with the divine. Its not necessary to be religious, meditate, pray, or be psychic to be intuitive. Our contact with the life spirit through intuition is ever-present and immediate. In Intuition @ Work author James Wanless, Ph.D. shares proven innovative techniques each of us can incorporate into our own lives to merge our intuition with strategic thinking. This is a supremely creative process that can support your own highest ideals in every area of your life. This ebook reveals ways you can personally explore how intuition is present in every moment of your life. (Youll find that it exists in many ways other than the occasional hunch.) He explains that we all want to find the path in life that will bring us happiness and love, abundance, good health, and meaning. Intuition is the life force itself, made conscious to us through a feeling that arises from within; through our intuition we tap into the ultimate resource of all--the very source of life. By following the intuitive spirit, all that each of us can humanly be and do is directly revealed and made manifest. Dr. Wanlesss investigation of the significance of intuition has shown him is how much intuition can do for us, and how easily it can be accessed. He says, I believe our intuition is useful in a practical way, more so now than in any other time in human evolution, such that it has even become imperative for the survival of our species. Life Navigator and Mentor James Wanless, Ph.D., is a former political science professor, popular keynote speaker and seminar leader. He is the creator of the best-selling Voyager Tarot. He travels through the United States, Europe, Australia, Asia, sharing the wisdom gained from his own transformative journey, combined with his professional background as a Professor of Political Science. He has focused on self-governance and the politics of the self--and his pursuit has led him to

become a leading-edge authority on creative and strategic intuition. Michelle Irwin, E-Commerce Business Consultant at Sun Microsystems said of his work: Dr. Wanless seminar provided an avenue for understanding our roles on our team, and how our personality mix is balanced. He motivated and enlightened us as to the potential of what we can accomplish as a team. Now he shares his discoveries and his teachings with us, offering a variety of techniques and exercises to help us find and use our intuition, to benefit from our personal connection with the life force.
