

Blindsided by Life: Coping with sudden loss

Life is unpredictable and can suddenly take a normal life and paralyze it with tragedy. BLINDSIDED BY LIFE is a book designed to explore, explain and exhale the unexpected grief that can come to families that suffer sudden tragedy and loss. Experts can help us heal the mind, but we need to see more of the picture to heal our spirit. We need to step back and see the whole panorama of history to have any understanding of, and reason for the sudden catastrophic loss of life. Gentle words can soothe and the right words can heal. This book will endeavor to start the healing process for the reader by taking a candid look at the inequities in this world, and discussing the forces that prevail upon men...both good and evil.
