More and more people are becoming concerned about where the world is heading. The global financial situation is teetering on the edge of collapse with the developed world at unsustainable debt levels. Banks and markets are doing well because the U.S. is printing money like there is no tomorrow. At the same time uprisings are spreading so fast through the Muslim world that they are poised to start a world war. Personal, civil and political violence is on the rise internationally. People are wondering what is going to happen with the United States of America, will its empire last? Is this the Time of the End which the Bible speaks of? This book addresses these questions and more about the U.S.A. in the End Time.
