

## Report of the Board of Control and Economy of the State of Alabama: June 30, 1919, to the Governor (Classic Reprint)

Excerpt from Report of the Board of Control and Economy of the State of Alabama: June 30, 1919, to the Governor

The Board of Control Economy created by an Act of the Legislature in February, 1919, was organized in accord with said Act in March following. It now submits for your consideration its first report. The purpose of this report is, first, to briefly and in summarized form, present for your information facts relating to the ten eleemosynary institutions now under the control of this Board, their inter-relationships, their relationship to the Convict Department, and the general relationship of each and of all combined to the States economic fabric; and second, to discuss the opportunities of the Board as a central buying and business agency for the State, its institutions and counties. This report must be brief and confine itself to those matters needing immediate change or improvement, with only such other statement as is necessary to give an unclouded view of the past and present, and what should be the future policy and practice to maintain the best social and economic situation for our State and people.
