

Dating and Marriage (Avoiding Hell on Earth Book 1)

Although neither heaven nor hell exist on this earth some marriages are so painful that some people imagine them to constitute Hell on Earth. This book offers help in avoiding trouble in dating and marriage. God created marriage and concluded that it was very good. When God is followed, marriage can be more like heaven than hell. Marriage offers potential heavenly bliss or a hellish nightmare. Marriage may be the source of ones greatest joy in life or their heaviest burden. To a significant degree, the difference depends upon who you choose as your life long spouse. Ironically the choice of who to marry is often made by relatively immature people, who are strongly influenced by emotions and hormones, rather than reason and reflection. Many of the problems in existing marriages are the direct result of a dating process that was inadequate, unfocused and faulty. Consequently, hope for successful marriages is found in an intentional approach to dating. Using the Bible as a guide, dating is assessed and evaluated. Suggestions are offered to provoke thought about the process of dating, the purpose of dating and the practices of dating. Assumptions about dating are challenged. The assumption is that the Creator knows His creatures better than anyone. God has provided specific instructions and principles to understand the marriage relationship. There are not specific biblical instructions about dating. But, understanding the role of dating, as it relates to what the Bible teaches about marriage, will enable an approach to dating that is clearly based on the teachings of the Bible. To facilitate use in youth groups or Sunday School classes, study questions have been included in an appendix. If you are already married it is likely that this book will provide clarity and encouragement to be the spouse you should be. When it was first published in 1999,

this book was part of my continuing effort to educate my children in the things of the Lord. I was compelled to put into writing many of the concepts that I tried to teach them throughout their developmental years. By putting these things in print it was my hope that they would have a ready resource for years to come. I have sought to present God as the authority, recognizing that my children ultimately belong to Him and are accountable to Him. At the same time, I have shared numerous personal experiences and observations. Hopefully others may be able to profit from this work as well. Please consider this book as one fathers attempt to teach his own children about dating and marriage with the hope that they will avoid some of the many heart aches so many people experience.

Introduction to 2nd Edition At the time of the 1st writing my oldest daughter was 16 years old and, of course at that age, none of my children were married. Now, 14 years later, three of my children are married. All of my 7 children have read this book under compulsion. Several of them have voluntarily reread it numerous times as events in their own lives, and the lives of others, spurred them to do so. I wish I could say that the instructions provided in these pages have been embraced by all my children, but I cannot. As they have entered adulthood each child has made their own decisions, for good or for bad. The 2nd edition has been updated and extensively revised based on another decade of life experience and increased insight into Gods Word. Some of the material has be reorganized. Three completely new chapters have been added: 1) Attraction, Modesty and Flirting, 2) How to find a mate, and 3) The Wedding.
