

The Power to say NO MORE to abuse

This may be the most shocking book you will ever read. It will break your heart and stick with you for years to come. It is a must read and every word is true. Physical, mental, verbal, emotional, abandonment and sexual abuse. Includes contact numbers and information on where to get help. This book gives the victim the power to say NO MORE to abuse. For me it was kind of a one - two - three punch. My Mom bailed on me when I was five. My Dad was a mean and violent drunk. And I had step brothers who picked on the smaller kid just because they could. Any one of these three is bad enough, but all three together is just incomprehensible.
