

## My Hearts Wishes: Thru-hiking the Appalachian Trail

At the age of 41 after a lifetime spent attempting to please others, Jill Altman embarked on a journey to honor her own feelings and desires by hiking the entire 2,174-mile Appalachian Trail in one year (called thru-hiking). The story of her adventure not only illustrates her roller coaster ride through love, fear, and everything in between, but also chronicles the daily trials and tribulations in the life of a thru-hiker. Ultimately she uncovered how her commitment to her goal of reaching and summiting the final mountain, Mount Katahdin in Maine, actually stood between her and her real purpose in hiking the trail.
