

OECD Economic Surveys: Poland 2010 (United Nations Office on Drugs and Crime - Bulletin on Narcotics)

OECD's periodic survey of Poland's economy. This 2010 edition features chapters covering ensuring a balanced recovery, preparing for euro adoption, and making the most of globalisation. It finds that Poland's economic performance in 2009 was strong, given the global downturn and the risks of a boom in the medium-term are growing. It recommends that fiscal discipline be restored, the ground for euro adoption be prepared, and that broad structural reforms are needed to benefit more extensively from globalisation.
