

The Golf Secrets of the Big Money Pros

All golf pros have special secret techniques for shaving strokes off their game, but they couldn't tell you about all of them even if they wanted to. They'd have to watch themselves in a mirror, take extensive notes, and then spend months organizing and refining it all. That's why it took Jerry's team of more than 30 slow motion technicians, photographers, artists and illustrators to help Jerry turn those unconscious techniques into clear diagrams and easy-to-understand explanations. Because of this sort of painstaking detail it cost over \$100,000 just to produce the manuscript for this one-of-a-kind book.
