

# Bright Shoots Of Everlastingness: Essays On Faith And The American Wild

All true loves are full of quarrels, and these essays tangle through some of mine, writes Paul J. Willis. Candid, adventuresome, hilarious and soul-searching, Willis explores his conservative religious upbringing, his affinity for the Romantic poets, his lifelong avocation of mountaineering and his midlife understandings of faith and wilderness. Several of the twenty-one essays in this collection have appeared in publications such as Ascent, The Best American Spiritual Writing 2004, The Best Christian Writing 2006, Books & Culture, The Climbing Art, Image, The Other Side, Redwood Coast Review, River Teeth and Summit. Settle into the steady expectation of delight, says John Wilson, editor of Books & Culture. Such is the charm of Paul Willis splendid essays.
