

Attention Late Bloomers: You're Right On Time!

If you feel that there are areas of your life where you haven't bloomed yet, and you have a good sense of humor, then this book of advice, techniques, anecdotes and applied common sense is for you! After a near-death experience in 1976, author Jerry Posner set upon a lifelong quest to learn and practice ways to become a more positive, growth oriented, productive, and well, happier person. He takes a practical, open-minded and fun approach to self-improvement and self-mastery. *Attention Late Bloomers: You're Right On Time!* is packed with short, entertaining, thought-provoking chapters designed to assist the reader in developing and maintaining the focus, awareness, choices and habits that lead to personal and professional success. Part memoir, part workbook, and with a bit of novelty writing thrown in for fun, you'll get some great ideas that you can use right away and some chuckles, too! Posner is an engaging speaker, writer, customer service trainer and ukulele player. After working in radio (including program director of an all-comedy station near Los Angeles in the 80s), he and his partners published *The Positive Times Journal* in the 90s. He's been a popular guest lecturer at Canyon Ranch in Lenox MA since 1993, presenting programs such as *Ways To Create Miracles In Your Life*, *Practicing the Practical Power of Gratitude*, and *Ways To Make The Butterfly Effect Work For You*. He is a New Jersey native currently living in Western Massachusetts, and graduated magna cum laude from Emerson College, with a degree in Mass Communications.
