

Thoughts of the Day: Book III - Peak Performance through the Power of the Infinite Mind (Thoughts of the Day: The Book 3)

There are many limiting beliefs within the human framework, most of which are inherently untrue. Our repeated and often unobserved attention to these beliefs gives them a life and power of their own, activating them in a way in which our bodies and golf games always respond. Through repetitive thinking, we become like magnets in attracting both wanted and unwanted experiences which eventually show up in highly predictable and synchronistic ways. What we often fail to realize is that nothing in our external reality appears outside what we have first given our attention and really our permission to , making the reframing of our limiting and sabotaging beliefs the most important inner work that any of us can ever do. This book, the third in the Thoughts of the Day trilogy from Tim N. Kremer, M.A. and Spirit of Golf, is a continued compilation of our favorite thoughts that are read by thousands throughout the world every day. We are exceptionally pleased to illustrate this book with the unique and critically-acclaimed Amy Lourie Spirit of Golf Fine Art Collection, featuring the artwork of Amy Lourie, PGA.
