

Pickets and Dead Men: Seasons on Rainier

* A womens perspective on the macho world of climbing rangers* Rescues, egos, and breakfast burritos on Mt. Rainier Being a climbing ranger on Mount Rainier proved to be a life-altering experience for Bree Loewen. As one of only a handful of women on staff, Bree fought to prove herself among men in the field, while confronting the often unrealistic expectations of the public on a mountain that shows little mercy. With honesty, self-deprecation, and wry humor, she reflects on her experiences on Rainier: assisting injured climbers, rescuing lost children, battling inscrutable bureaucracy, lugging heavy equipment, and trying to make sense of it all. Whether its her account of a solo climb in dicey conditions or trying to protect her good jacket while cleaning the outhouses at Camp Muir, Loewens writing is engagingly human and humane.
