

Putting Drills: How to Improve ANY Golfers Score

In this compact book, you will learn more about putting than you would receive in many instructors \$65 lessons. First, I demonstrate how putting is 50% of your golf game. Then I layout the actual drills. Your score will automatically drop significantly by reducing the number of putts. THATS RIGHT! The fastest method to improving your golf game is with one club, the PUTTER! Practicing the drills I give you in this book will reduce the number of strokes that you need per round. These time-tested practice routines have assisted many golfers in not only breaking 100, but lowering the scores of golfers that are more advanced. Improving your score doesnt come from reading long books on golf; it comes from getting on the green and practicing drills using the club that is 50% of the game. Please use these drills for immediate improvement. Good luck and enjoy.
