

Resurrecting the Biblical Family (Man and Woman in Biblical Law Book 1)

This book is a doctrinal manifesto. Its aim and purpose is to produce what many modern writers are fond of referring to as a paradigm shift. The goal is to lay the foundation for the establishment of a truly biblical social order, especially within the community of Bible-believing, Christ-honoring families. The subject matter is patriarchy and the biblical exposition contained herein is devoted to establishing the proposition that it is patriarchy which is and was mandated by God ever since the original creation of man and woman. This work is vulnerable to being misperceived as a work primarily about polygamy since the bulk of the exposition centers around that subject. But read carefully. Note the flow of the argumentation. The biblical exposition on polygamy here serves a supporting role to the fundamental proposition of God-ordained and mandated patriarchy. In terms of this thesis, it is a secondary and subsidiary point - which is not to say that it is not important as a subject in its own right. There are a multitude within the ranks of the Evangelical churches who are rightly and justifiably dismayed at the encroachment of feminist ideology as a subversive factor within Christendom and who are formally in favor of the biblical mandate of male headship within the Family and the Church. Sadly, almost all of the responses and reactions to this encroachment are fundamentally compromised with feminism in one way or another. This present work rejects all such compromise. A complete Scripture Index and a Topical Index are included.
