

Postfoundationalist Reflections in Practical Theology: A Framework for a Discipline in Flux

Postfoundationalist Reflections in Practical Theology seeks to explore the implications of a Postfoundationalist theology for the discipline of Practical Theology. While moving beyond the modernist and postmodernist debates, it charts a way forward for a theology that is bound by neither relativism nor certainty. It believes that Practical Theology is well suited to this task by its very nature and methodology. In a fast-changing world the description of the field of practical theology as continuously under construction rings true to many scholars in the field. Macallan finds in a postfoundationalist approach to the field of practical theology the vocabulary to take the context very seriously. In grappling with the epistemology of the field he develops a grammar for practical theology in conversation with many voices. In engaging with these voices he shows us how to participate in a constructive way in our postmodern era towards the praxis of a living faith. --Ian Nell, University of Stellenbosch, South Africa Philosophically grounded, theologically astute, and ecumenically aware, Brian Macallan's *Postfoundationalist Reflections in Practical Theology* provides a penetrating analysis of the discipline's emergence, pitfalls, and possibilities. His command of historical and contemporary scholarship is breathtaking as is his commitment to elucidating a practical theology that is missional, praxis-based, cogent, and humble . . . as it must be for a postmodern world. The work, at once balanced and provocative, deserves the attention of all scholars of the discipline. --Gerard Hall, Australian Catholic University, Australia Brian Macallan invites readers on a journey he knows well from foundationalist assertion of inerrant biblical truth to a chastened and humble postfoundationalist affirmation of Christian faith, discovering along the way practical theologians turn to

local knowledge as a fruitful resource. His book will be especially useful to those caught in similar binds and curious about practical theology as a potential road forward. --Bonnie J. Miller-McLemore, Vanderbilt University, Nashville, TN
Brian C. Macallan is Senior Lecturer in Theology at Tabor College in Melbourne, Australia, and Senior Researcher for Open Seminary in South Africa, Australia, and America.
