

Sanctify them in the Truth: Holiness Exemplified (T&T Clark Cornerstones)

In Sanctify them in the Truth Stanley Hauerwas provides an overview of the development of theology and ethics. He considers how the two disciplines interrelate, discusses the nature of sin, how any account of sin requires a more determinative account of moral law, the nature of sanctification, the body as a subject for Christian holiness, and the relationship between sanctification and truthfulness. The volume ends with sermons - Hauerwas emphasizes the freedom the sermons create, as they remind us that the words we use are not our words. The inclusion of sermons also underlines Hauerwas point that the truth of the gospel cannot be discovered apart from its embodiment in specific communities of faith. The Christian life, he argues, is not about being in possession of the truth, defined as a set of timeless and universal principles of belief and action. Rather, it is about learning and living the life of truthfulness toward God and one another. For this Cornerstones edition Hauerwas has provided a new preface that places the work in the present debate and brings this remarkable work to a new audience.
