

## Success Secrets for Young Adults

Essential life tips accumulated over twenty years of teaching high school and raising my own children, I share these with seniors each year before they head off to college and out into the world. Its surprising how often students react as if theyre hearing for the first time this common-sense wisdom. This may describe you, and if so, dont sweat it; its actually somebody elses fault. No, really! As a young person, this is one time when its truly not your fault, since advice like this, once common, has fallen from our contemporary core of knowledge passed from one generation to another. Ive compiled advice from a variety of sources and covering many topics. Some are relatively short and straight to the point, while others require a little more explanation. Some are geared toward the workplace, others toward school, and most toward life in general. In the end, Im sure youll find the advice here both practical and beneficial, insight that used to be passed along from fathers and mothers to sons and daughters. Heck, just call me Dad. (Awww...)
