

SUPERb Woman: From Bad Girl to Gods Girl

This workbook is a roadmap and devotional for all women who strive to meet the standard of the godly Proverbs 31 woman. Many books have been written about the Proverbs 31 woman, but I wanted to approach her from a different angle. I want to look at her as a SUPERb woman and remind you of the superb woman you used to or hope to be. We all have this potential to be like this highly regarded woman of God. But somewhere along the way our inner SUPERb woman got lost. God has endowed us with a natural and supernatural ability to do all things through Him. Sowhy are we just getting by? Why are we settling for less? Why are your dreams bleeding and dying on the side of the road? I really want to know what happened to you. Who came and ran you off your race? Most importantly, what are you going to do about it?! Why did I decide to write this book? Technically, I didnt decide, God did. I speak to many women daily who are in unhappy, unfulfilled marriages with husbands and children, who they consider to be thankless. I speak to the single women, who believe God for a husband and who shake their heads at how remiss the married sisters are for lamenting over their husbands. For the singles sisters there are many lonely nights, tears and kisses from frogs who will never be princes and, well, you get the gist. This book is for the women who strive to meet the standard of the godly woman in Proverbs 31. Many books have been written about the Proverbs 31 woman, but I wanted to approach her from a different angle. I want to look at her as a super and SUPERb woman, and remind you of the super and superb woman you used to or hope to be. We all have this potential to be like this highly regarded woman of God. But somewhere along the way our inner SUPERb woman got lost. This will serve as a testimony to those of us who desire greatness regardless of the

battlefield raging in our flesh, our minds and our spirits in the forms of insecurity, broken-heartedness, and dreams deferred, single motherhood, diseases, and you name it. As SUPERb women, we owe it to every great-grandmother, grandmother, mother, aunt, sister, and girlfriend who has come before us and who planted the seeds of grace, strength, excellence and godliness within us to excel in the face of seemingly insurmountable odds. We owe it to them to forge ahead. Their legacy is now our legacy. If this is NOT the legacy you have been given, let it begin now with you. We have all been through some things but in Christ, we are imbued with a power from on high. God has endowed us with a natural and supernatural ability to do all things through Him. So why are we just getting by? Why are we settling for less? Why are our dreams bleeding and dying on the side of the road? I really want to know what happened to YOU. Who came and ran you off your race? Most importantly, what are you going to do about it?! If you're not sure, that's okay. I've come to help you find your way back home. Where is home? Home is the place where God intended us to be all along. Home is where the Proverbs 31 woman met God. This is where she held His heart, while she let her light shine to the world around her, her family, her employees and her neighbors. Home is the place God intended us all to be and the place our spirit longs for. Come, go with me. * Please note that many chapters have journal entries for you to complete with as much thought as possible. Upon completion of this book, I would like for you to come back to each of your entries and see if your mindsets have changed.
